religion and state in medieval india the essays reflect and have also been responsible for determining new currents in history writing over the last five decades set in the bleak environments of london s homeless community the echo is the mystery thriller from crime queen minette walters it was the smell that mrs powell noticed first slightly sweet slightly unpleasant it shocked her badly to find a dead man in the corner his head slumped on his knees who was billy blake other than a homeless alcoholic who wandered the streets why was he found dead from starvation in one of the richest areas of one of the richest capitals in the world and why did he die alone in the garage of wealthy architect amanda powell a woman whose wealth can only be explained if her husband is dead exploring the notion of early medieval this book re examines and presents an alternative history of south india it covers problems and history of tamilakam in general and early medieval karnataka and kerala in theology contributed articles illustrations 2 maps and 23 line drawings description the book focuses on the decline of the towns and their desertion in late ancient and early medieval india on the basis of archaeological evidence the author has material remains to study crafts commerce and coinage and identifies and illustrates signs of growth and decay for more than 130 excavated sites the strata with poor remains are taken to indicate decrease in construction manufacturing and commercial activities and are hence associated with de urbanization the reasons for the urban eclipse are sought not only in the fall of empires but also in social disorder and the loss of long distance trade the disintegration of the town life is seen not as social regression but as part of the social transformation which generated classical feudalism and promoted rural expansion the book explores the link between urban decay and land grants to officials priests temples and monasteries it shows how fifteenth century this book is concerned with money as an indicator of economic activity it makes a comprehensive examination of the use of money from afghanistan to bihar and from kashmir to malwa during this period was scarce primitive and debased by analysing the evidence of surviving coin hoards his findings suggest a considerably greater reliance on money closer co ordination of its use and its wider circulation in larger quantities than is consistent with many current models of the early medieval indian economy the buddhist saint n ag arjuna who lived in south india in approximately the superb translation of the tibetan text of m lamadhyamikak arik a in its entirety and a commentary reflecting the tibetan tradition through which n ag arjuna s philosophical influence has largely been transmitted illuminating the systematic character of n ag arjuna s reasoning garfield shows how n ag arjuna develops his doctrine that all phenomena are empty of inherent existence that is than nothing exists substantially or independently despite lacking any essence he argues phenomena nonetheless exist conventionally and that indeed conventional existence and ultimate emptiness are in fact the same thing this represents the radical understanding of the buddhist doctrine of the two truths or two levels of reality he offers a verse by verse commentary that explains n ag arjuna s positions and arguments in the language of western metaphysics and epistemology and connects n ag arjuna s concerns to those of western philosophers such as sextus hume and wittgenstein an accessible
